

## ABOUT US

---

Founded in 1933 in Lynchburg, Va, Moore & Giles is dedicated to designing and developing the world's most innovative and luxurious natural leathers. Leather has always been a symbol of style and sophistication, and our mission is to reveal its inherent beauty and preserve the natural features that give it character.

The introduction of our leather bags and accessories collection in January of 2007 was an additional avenue for us to showcase the beauty of our leathers. Inspired by our travels around the world, this exquisite collection is marked with refined elegance and superior craftsmanship. All incredibly of-the-moment yet designed to last forever, they are sure to become lifelong travel companions, taking on a distinctive patina and wealth of charm with each use.
